FAQ: Why do I need to deposit funds for the technician?

In the past we have issued checks differently, the expert will cash the check immediately and move to the participant's location to Decals the vehicle. Only to be told, the car had an accident and it cannot be Decal, some will say the car got towed because of illegal Parking, we experienced so many excuses; this has resulted in losses of money paid to technician because materials bought will be wasted. This is why we decided to be issuing the checks together to make everybody gets ready the same time. If you have any more questions feel free to ask.

The balance which you are required to send to the installer is the payment for the Auto-Wrap installation, maintenance and removal as well as the cost of the transportation of the installer to and for your address. Your subsequent paychecks would be for \$500 only which will be mailed to your address bi-weekly after the decals has been installed
